Ever wonder how some people can eat all their favorite foods and not gain weight? Wondr Health is an online program that will teach you how. And here's a hint: it doesn't include starving, counting calories or spending hours prepping 'approved' foods. Wondr Health gives you the chance to learn how to eat the foods you love while reducing your risk of developing serious conditions, like diabetes or heart disease.

Wondr Health is available at NO COST to you and is accessible by computer and mobile device so you can participate whenever it's convenient, wherever you are.

For more information about Wondr Health, visit WondrHealth/swhp.org.

My claims

Exploring monthly statements

An electronic Monthly Insurance Statement, also known as an Explanation of Benefits (EOB), is available in the <u>Member Portal</u> to help you manage your claims expenses at a detailed level. The statement provides line-item detail on charges for that month, including what was billed and covered by SWCP. The amount you owe is included in this statement.

Remaining balances for deductibles and out-of-pocket expenses are also reported. Information for the current month and year-to-date is included. Statements are not provided for prescription claims or claims where the member does not owe anything.

Your EOBs will be available on the <u>Member Portal</u> unless you specifically request to receive paper EOBs in the mail. To request paper EOBs, log in to the <u>Member Portal</u> and select "Update Preferences."

Stay better, longer

Disease Management

Disease Management empowers you to manage your chronic condition and help prevent complications. We work with your healthcare providers to identify chronic conditions quickly and treat them effectively. We can also identify self-care activities that help you manage your condition at home. Together, we'll work to slow down the progression of your disease and help you stay better, longer.

Complex Case Management

If you have chronic conditions or complex care needs, our nurse case managers will work with you, your family, and your physician to create and manage your care plan. Case managers advocate for you and can help you navigate the healthcare system and arrange the services you need. They can also answer questions and help you understand your condition and care plan. If you are enrolled in a Disease Management program, they'll incorporate the program into your care.

There is no additional cost to you for this voluntary program. It's all part of our goal to help you get the best possible results and the greatest value from your health plan.

NOTE: You can opt-in or opt-out of these programs by calling **844.279.7589**.
